

OPTICA ACTA

The International Journal of Applied and Theoretical Optics

Volume 20

Printed and Published by

TAYLOR & FRANCIS LTD

10-14 MACKLIN STREET LONDON WC2B 5NF

Founded under the auspices of the International Commission for Optics

CONTENTS OF VOLUME 20

No. 1 January 1973

	Page
Editorial	
New method of optical processing using a random diffuser. M. FRANÇON	1
Evaluation of the wavefront aberration in holography. J. M. MILES ...	19
The moiré pattern produced by overlapping zone plates. I. LEIFER, J. M. WALLS and H. N. SOUTHWORTH	33
Evaluation of a total system—optics plus operator. I. OVERINGTON and S. A. GULLICK	49
The diffraction of a one-dimensional gaussian beam by an amplitude sinusoidal grating. C. BAR-ISAAC and A. HARDY	59
Spherical wave propagation through systems of inclined cascades with wedge substrates. J. PRASAD and P. K. JAIN	69
Lecture Course	79
Book reviews	81

No. 2 February 1973

Properties of weakly absorbing multilayer systems in terms of the concept of potential transmittance. D. J. HEMINGWAY and P. H. LISSBERGER	85
Influence de l'absorption sur les propriétés optiques des solides: propagation des ondes électromagnétiques hétérogènes, planes et uniformes, dans les milieux homogènes et isotropes. MARIE-ROSE LEFÈVÈRE et MARC MONTEL	97
Fresnel diffraction by a circular aperture illuminated with partially coherent light. II. TOSHIMITSU ASAKURA and ISSEI AKAMATSU	129
Peripheral threshold of perceived contrast of the human eye. JAN STANĚK	137
The scattering of light by elastic waves in cubic crystals. P. H. BORCHERDS	147
Book reviews	161

No. 3 March 1973

Stimulated Raman radiation and stimulated Mandel'stam-Brillouin radiation in a laser resonator. V. N. LUGOVY and V. N. STRELTSOV	165
Blaze optimization for triangular profile gratings. R. C. MCPHEDRAN and M. D. WATERWORTH	177
Focused laser irradiance fluctuations in a turbulent medium. K. S. GOCHELASHVILY	193
Justification of the model for electron interference produced by an electrostatic biprism. J. KOMRSKA and B. VLACHOVÁ	207
Foci of axially symmetrical filters. M. NOVOTNÝ	217
Relationships between luminance and the brightness of coloured lights. R. HILZ and C. R. CAVONIUS	233
Correspondence:	
On the feasibility of a holographic analogue memory by means of intensity level modulation. FUJIO SAITO	241

	Page
Retirement of Professor Fritz Gabler	245
Conference Notice	247
Book reviews	249
Erratum	252

No. 4 April 1973

The effect of defocus on the resolution of two points. T. S. McKECHNIE ...	253
Diffraction and interference of partially coherent light traversing two superposed sound fields. Y. OHTSUKA	263
A method of reducing the fluctuations of intensity at the focus of a circular aperture. A. K. CHAKRAVARTI, K. N. CHOPRA and J. N. MAGGO ...	271
An apparatus for continuous, objective measurement of refraction of the human eye. HELMUT KRUEGER	277
Flux density for ray propagation in discrete index media expressed in terms of the intrinsic geometry of the deflecting surface. DAVID L. SHEALY and DONALD G. BURKHARD	287
Electromagnetic wave propagation through a gas lens. A. K. GHATAK, D. P. S. MALIK and I. C. GOYAL	303
A technique to retain the hologram reconstruction efficiency in elimination of the intense reference beam by the method of pre- or postexposure. C. S. VIKRAM and HARSH VARDHAN	313
Application des couches minces en coin à l'interférométrie. H. DUPOISOT, J. MORIZET et P. LOSTIS	317
Correspondence:	
A note on whether a non-linearity precedes the De Lange filter in the human visual system. DAVID H. FOSTER	325
Notice	329
Book reviews	331
Corrigendum	332

No. 5 May 1973

Anwendung der vektoriellen Kohärenztheorie zur Herleitung grundlegender Ausdrücke für die Interferometerberechnung. K. LENHARDT und K. LEONHARDT	333
The plate diagram and its application to off-axis systems and spectrographs. JUAN M. SIMON	345
Détermination des constantes optiques de couches minces peu absorbantes: Application au fluorure de magnésium dans la zone 1000-2000 Å. A. DAUDE, A. SAVARY, A. SEIGNAC et S. ROBIN	353
The relation between object position and autocorrelation spots in the Vander-Lugt filtering process. I. On marking accuracy in holographic feature extraction. G. WINZER and I. KACHEL	359
Goniospectrophotomètre à polarisation de 0,25 à 1 μ . J. LAFAIT	365
Unidirectional optical coherent noise elimination by the time averaging method. ROMUALD PAWLUCZYK and EWA MRÓZ	379

	Page
Parametric noise suppression in complex holograms. R. I. MACDONALD, K. O. HILL and V. MAKIOS	387
Superresolution by multiple superposition of image holograms having different carrier frequencies. MITSUHIRO UEDA, TAKUSO SATO and MASATO KONDO	403
Conference Report	411

No. 6 June 1973

Contribution au contrôle des surfaces planes non traitées. J. P. MARIOGE et C. MAHE	413
Origins and reduction of line broadening in the spectra of fast ion beams. JOHN O. STONER, JR., and JOHN A. LEAVITT	435
The joint influence of spherical aberration and partial coherence due to atmospheric turbulence on the structure of the far-field diffracted by circular apertures. S. C. BISWAS and S. C. SOM	449
Images of periodic objects under partially coherent illumination. A. K. JAISWAL and R. K. BHOGRA	469
Conference Notices	487
Book review	491

No. 7 July 1973

Absorption in turning value monitoring of narrow band thin-film optical filters. H. A. MACLEOD	493
Influence du procédé de contrôle sur les tolérances de réalisation des filtres interférentiels à bande étroite. E. PELLETIER, R. KOWALCZYK et A. FORNIER	509
Return-pass birefringent Fabry-Pérot filters. D. CLARKE	527
Properties of diffraction grating anomalies. R. C. MCPHEDRAN and M. D. WATERWORTH	533
Fraunhofer diffraction at apertures in the form of regular polygons. II. J. KOMRSKA	549
Absorption cross-section and spin analysis in the three-photon process. G. P. SRIVASTAVA, R. NATH and S. C. GUPTA	565
Conference Notices	577
Obituary	579
Book reviews	581

No. 8 August 1973

Image contrast and efficiency of non-linearly recorded holograms of diffusely reflecting objects. C. H. F. VELZEL	585
An experimental study of the anomalies of sinusoidal diffraction gratings. M. C. HUTLEY	607

	Page
Incident-light double-refracting interference microscope with variable wave-front shear. M. PLUTA	625
Extraction of Tschebysheff design data for the lowpass dielectric multilayer. J. S. SEELEY, H. M. LIDDELL and T. C. CHEN	641
Errata	663
Book reviews	665

No. 9 September 1973

The imaging properties and aberrations of thick transmission holograms. M. R. B. FORSHAW	669
Properties of laser mirrors at non-normal incidence. H. F. MAHLEIN ...	687
Interferentielle Absolutprüfung zweier Flächen. G. SCHULZ	699
Spot-dancing and related saturation phenomenon of irradiance scintillation of optical beams in a random medium. K. FURUTSU and Y. FURUHAMA	707
Two-point resolution criteria in partially coherent imaging. ERIC C. KINTNER and RICHARD M. SILLITO	721
First-order probability densities of laser speckle patterns observed through finite-size scanning apertures. RICHARD BARAKAT	729
News item	741
Book reviews	743

No. 10 October 1973

Some detector characteristics of the photographic process. R. SHAW ...	749
A detailed experimental study of the anomalies of a sinusoidal diffraction grating. M. C. HUTLEY and V. M. BIRD	771
Depth perception with low light level devices. R. APTER	783
An analysis of the modes of Fabry-Perot open resonators. A. CONSORTINI and F. PASQUALETTI	793
Wave theory for a simple lens. WILLIAM H. CARTER	805
Minutes of the 9th Session of the International Commission for Optics held on 10 and 12 October 1972, at Santa Monica, California, U.S.A. ...	827
Book reviews	831

No. 11 November 1973

Phénomènes d'interférence produits par un hologramme de Gabor enregistré avec une onde sphérique de référence. C. P. GROVER et M. MAY ...	833
Propriétés et conséquences de la modulation temporelle du signal optique en métrologie optique. G. ROBLIN	845
Structure des figures de diffraction données par des réseaux concaves. M. LAVOLLÉE, G. STEPHAN et S. ROBIN	859
On new non-linear magneto-optical phenomena in crystals and liquids. S. KIELICH and R. ZAWODNY	867

	Page
The computation of aberrational diffraction images for catadioptric systems. I. POWELL	879
The influence of random wavefront errors on the imaging characteristics of an optical system. II. Statistics of the transfer function. RICHARD BARAKAT and ELLIOT BLACKMAN	901
Conference Notice	913
Book reviews	915

No. 12 December 1973

Etude numérique de la diffraction par une fente à l'interface de deux milieux diélectriques. B. COLOMBEAU, P. FACQ et J. DU MARACHE ...	917
Optical interference coatings for inhibiting of counterfeiting. J. A. DOBROWOLSKI, K. M. BAIRD, P. D. CARMAN and A. WALDORF	925
Recent advances in graticule and mask making. D. F. HORNE	939
π -Phase filter for photographic use. P. K. KATTI and MAHIPAL SINGH ...	959
Performance of apodized apertures under partially coherent illumination. A. K. JAISWAL and R. K. BHOGRA	965
Curvilinear bicubic spline fit interpolation scheme. CHANGHWI CHI ...	979
Correspondence:	
Images of truncated triangular wave objects formed by an apodized slit aperture. J. N. MAGGO, K. N. CHOPRA and G. S. BHATNAGAR	995
Book reviews	999
Index of authors (with titles)	1001
